

More Efficient More Comfort Less Money*

Creekside at Tryon Village now offers ENERGY STAR® certified homes! With your new home you can save energy and conserve water, plus benefit from energy saving building techniques. Some of the features of these new homes include:

- Smart Thermostats
- R-38 Insulation
- Low-E Windows
- High Efficiency HVAC
- ENERGY STAR® Dishwasher
- Radiant Roof Barrier
- Energy Seal

These features help reduce your energy consumption and can help reduce your bills as well.

Visit today to find out more!

*Actual energy efficiency and savings will vary by weather conditions, floor plan, occupancy, appliance usage, system size, thermostat settings, orientation of PV array and other factors. Pulte Homes cannot provide guarantees of actual savings. Certain inventory homes have been verified by independent Home Energy Raters to qualify for the Energy Star. Not all homes will qualify. See a Sales Associate for complete details. Visit www.energystar.gov for more details on the Energy Star Program. © 2009 Pulte Home Corporation.
